The specimens were examined and twenty-four latent fingerprints
 and one latent palm print of value were developed on Q367, Q371, Q372,
 Q373, Qc377 and photocopy of handwritten letter.

One currently developed latent fingerprint on Q373 has been
 identified with a previously reported latent fingerprint developed on Q100.

The remaining currently and previously reported latent
 fingerprints were compared with the comparable areas of each other, but
 no identification was effected.

The specimens are being returned under separate cover.

Specimens received: August 20, 1990

Specimen:

Qc448 Photocopy of a one page letter bearing the hand
printed message beginning "TREES SPIKED ON ..."

Results of examination

Some similarities were observed in printing style when comparing the writing appearing on specimen Qc448 with the questioned writing on the Q2 cardboard (00601001 S/D YR WW). However, because of the hand drawn nature of the the questioned writing, it could not be determined whether both entries were prepared by the same writer.

Indented writing in the same printing style was observed on specimen Qc448 which reads:

"THE UNION NEWSPAPER
613 H STREET
ARCATA, CA 95521"

Photographs have been made and are retained.

Specimen Qc448 will be returned with the results of the latent fingerprint examination.

Results of examination

It could not be determined whether the questioned writing appearing on specimens Qc449 through Qc454 were all prepared by the same writer because of variations in printing style as well as the hand drawn nature of the questioned writing.

The submitted specimens have been photographed and are being returned as enclosures with this report.
